Perez
MISSIONARIES
TO URUGUAY

August 2024

*Nueva Helvecia was able to purchase
a wonderful piece of property*

Dear friends,

Greetings to you in the name of our Lord! We pray for you regularly and thank the Lord for your love and support of our ministry!

1. Highlights of our Winter

We had the immense privilege of having a team from Maranatha Baptist University come and minister to us and some of our churches in Uruguay through wonderful music and preaching. We saw fruits of that ministry with a family attending services regularly after the music concert and other contacts that heard a clear presentation of the Gospel.

Our son-in-law David was ordained as a pastor! We rejoice to see another man surrendered to be a servant of God.

The church in Nueva Helvecia was able to purchase a wonderful piece of property to put up a building. Thank you for praying and giving towards this need. We can envision what an impact a good church with enough space will have in that city, and we praise the Lord for providing!

What a tremendous youth conference we had! We see great growth in many of our young people since the conference. Pray that they will remain faithful.

2. Prayer requests

Mark and Yanina Perez and John and Bethany Briley are raising support now. Please pray for them, for protection in their travels, and for the needed support to come.

Pray for our upcoming furlough. Lord willing, we will visit your church and report on what the Lord is doing here through our partnership in the ministry. We will be contacting you soon if we have not done so yet.

3. Family matters

Lord willing, our daughter Priscila will be getting married December 21st this year to a godly young man from Greenville, SC. His name is Daniel Vazquez for their plans, and that they would always have a Christ-centered home.

David and Andrea need to raise more support so they will be traveling to the States next month, Lord willing. They are currently very under supported, but we trust God will provide the churches to present their ministry.

Our health... nothing serious, but it seems every time we visit the doctor, they find something new... probably that is aging!

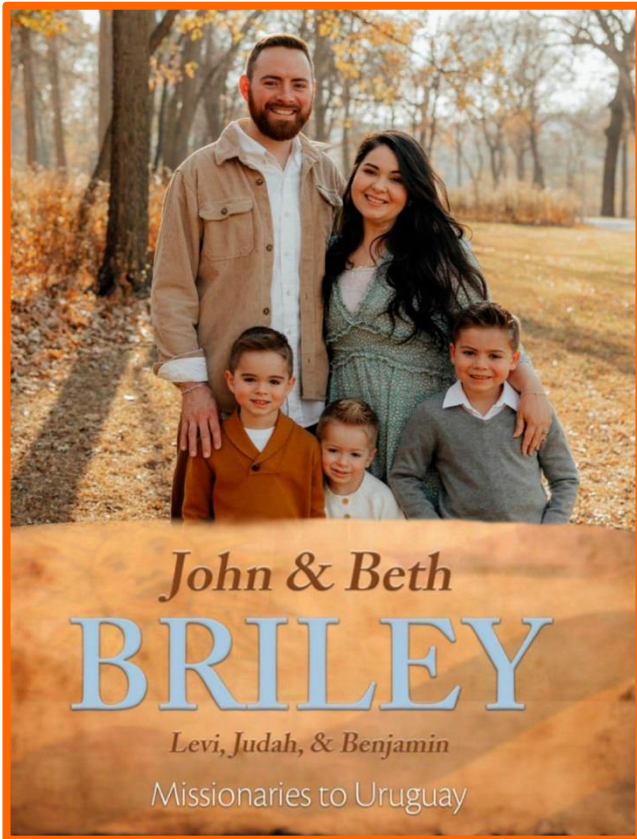

Pastors here and for the planning of the months we will be gone.

Thank you, again dear friends! Thank you for your concern for us and the ministry and for your faithful support!

May God bless all your ministries and your families.

Yours for Uruguay,

Archie and Ruth Perez
