

Liedtke December Update

HONDURAS

Dear Friends,

We have just finished a wonderful week of ministry with a Medical Brigade from Heritage Baptist Church in Haslet, Texas. Much planning and prayer went on for many months and the Lord blessed our partnership with 715 persons being treated with medical and optical care, all of them also receiving the Gospel and spiritual help, and 35-40 of the patients receiving Christ as Savior. We praise the Lord that he held off rain during the clinic, that both our church family and friends in ministry here were heavily involved, and that the medical team did a great job and even coordinated with our local health department for some extra services. We praise God for allowing us to be involved! Please pray for the follow up!

In September we celebrated Día del Niño, or Children's Day, with a community outreach. Fun, Games, Bible lesson, lunch and a special gift of school supplies. We have had several children start attending children's class since this event.

The men of our church had a workday and cookout in October, getting many needed projects done at the church. A couple of the men and boys also worked hard to get a swing set put up for the children.

Thank you to all who have given towards the church apartment! Included are a few pictures of the finished product. What a blessing for a couple that came to help us with Children's Day to be able to stay there and also for 2 missionary pastors to use it during the medical brigade! In fact, all 21 team members plus our people were able to use the apartment for breaks and lunches for the brigade.

We want to thank you for all of your faithful support and prayers during 2024! Please pray for our Christmas outreaches and that the Lord would add to the church! God bless all of you!

In Christ, Mark and Brenda Liedtke, BIMI, Honduras
