

dinsmore family TO BELIZE

Dear Prayer Partners,

October 2025

Where to begin? Let's go past, present and future...

In our last letter we told you that we were looking forward to participating in a country-wide Baptist Youth Camp the end of July. It was a tremendous week of getting to share the gospel and to pour into some kid's lives. Both my wife and I were privileged to be able to speak in different chapel services, my wife did a great job as the "camp cook" for our group, and our kids thoroughly enjoyed the time with other teens. Please pray there will be lasting fruit from this.

In August, we dropped our oldest daughter off at college. She is doing wonderfully. A huge thank you to everyone who has been praying for her as she takes this new step and as we adjust to life without her here on the field. Our kids have always been a big part of the ministry here so not only is she dearly missed on a family level, she is missed on a ministry level as well.

In September, October and November, we'll have been and will be involved in 5 different churches here in Belize doing furlough replacement ministry, a myriad of youth activities, a ladies conference and bringing the bouncy castle to several different church's special events. How good is God that He allows us to get to be a part of all these things!!!

That covers some of the past and the present, and now for the future... We are VERY excited that it seems that the Lord is opening doors for us to start a church in the Cayo District of Belize. Cayo is the second most populated district (out of 6) in Belize. There are three main cities in this district and villages all up and down the main highway between them, not to mention those tucked off of the main highway. The three main cities are: Belmopan (the Capital City of the country), the twin towns of Santa Elena/San Ignacio and the Mennonite settlement of Spanish Lookout. There is a gospel preaching church in each of these larger towns (one of which being the one we planted during our first term and is currently being pastored by Pastor Omar) But there are so many people in between those towns. We believe the Lord is directing us to the area central between these larger towns. However it is important that we not be directly in one of the villages, because people would struggle to go from their village into another village, however, they are more likely to feel they can go to a central location. Which led us to the problem of where. Land is expensive and we could find nothing to rent. But God! It seems that He has led us to a man that is selling property that is in the exact spot that we would've chosen if we could chose anywhere. We didn't even approach him about that piece (first of all because we didn't know he owned it, and secondly we wouldn't have dreamed that it might be a possibility) He said he wouldn't sell the piece we were asking about, but he did say he was looking to sell this other piece. This piece (the miracle house, as my kids are calling it) is not only 3 acres of prime (to us) land, but it has a house that would serve as housing for our family, and best of all, a large 45' by 125' "shop" that makes an amazing beginning to a church building, but certainly sufficient to begin meeting in right away. He has agreed to trade a portion of the purchase price for the farm land that we bought here back before we moved in 2015, as well as the cash we have on hand, but we do need some additional funds to finalize this deal. Approximately \$80,000CAD or \$55,000USD. If you would be willing to pray if the Lord would lead your church to help towards this, we would be very, very grateful. If you have any questions regarding this, please feel free to ask. My email is dinsmores2belize@gmail.com or we could arrange a video or phone call.

Sincerely and for His Glory,
Dan and Tracy Dinsmore
2 Samuel 22:31-35
